- Learn about Salesforce security features, including profiles permission set field-level security, and sharing settings.

Intern at Gowox Infotech Private Limited | Junior Web Developer

Sep 2020 - Apr 2021

- I have used various technologies and tools in my internship, including HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, and Git, to develop full-stack web applications.
- I have gained valuable experience in agile development methodologies, working in sprints to deliver features incrementally, prioritize tasks effectively, and adapt to changing project requirements.

PROJECTS

SkillBoost Application | ReactJS Tailwind CSS NodeJS ExpressJS MongoDB Render Vercel

2024

- **SkillBoost is a fully functional ed-tech platform that enables users to create, consume, and rate educational content. The platform is built using the MERN stack, which includes ReactJS, NodeJS, MongoDB, and ExpressJS.**
- The SkillBoost ed-tech platform consists of three main components: the front end, the back end, and the database. The platform follows a client-server architecture, with the front end serving as the client and the back end and database serving as the server.

Blogging Application | ReactJs Tailwind CSS Javascript NodeJS Appwrite

2023

- **I have used React Router to seamlessly navigate through the React Mega-Blogging App, ensuring a smooth and efficient single-page application experience.**
- I have integrated Appwrite as the backend for the React Mega-Blogging App. Features such as authentication, database, and file storage, providing a robust backend solution for the application.
- This application allows you to write, edit, and publish your blogs seamlessly.

My-portfolio | HTML CSS JavaScript

2023

- **Briefly introduce myself.**
- Create a section for Home, Skill, Education, Service, Project, Contact
- Ensure My-portfolio application is mobile-friendly and accessible.
